

April 11, 2022

Dear Sequoia Shareholders and Clients:

For the first quarter of 2022, Sequoia Fund generated a negative return of 12.57%¹ net of fees, versus negative 4.60% for the Standard and Poor's 500 Index.

During the quarter we exited the Fund's stakes in Prosus and Walt Disney and significantly increased our investment in Netflix with the proceeds. We also made minor incremental additions to our holdings in Facebook, Universal Music Group and Wayfair. We discuss the Fund's activity in more detail in our Q1 video commentary, which will be available shortly.

Our annual Investor Day will take place in person—finally!—on Friday, May 20, 2022 at 10am at The Times Center in New York. Clients who prefer to attend virtually can do so by live webcast. You can find further detail and also register on our website at www.ruanecunniff.com/events. We look forward to seeing many of you in person.

Sincerely,

The Ruane Cunniff Investment Committee

Annual Fund Operating Expenses (expenses that you pay each year as a percentage of the value of your investment):

<i>Management Fees</i>	<i>1.00%</i>
<i>Other Expenses</i>	<i>0.09%</i>
<i>Total Annual Fund Operating Expenses**</i>	<i>1.09%</i>
<i>Expense Reimbursement by the Adviser**</i>	<i>(0.09)%</i>
<i>Net Annual Fund Operating Expenses**</i>	<i>1.00%</i>

** It is the intention of Ruane, Cunniff & Goldfarb L.P. (the “Adviser”) to ensure the Fund does not pay in excess of 1.00% in Net Annual Fund Operating Expenses. This reimbursement is a provision of the Adviser’s investment advisory contract with the Fund and the reimbursement will be in effect only so long as that investment advisory contract is in effect. The expense ratio presented is from the Fund’s prospectus dated April 30, 2021. For the year ended December 31, 2021, the Fund’s annual operating expenses and investment advisory fee, net of such reimbursement, were 1.00% and 0.93%, respectively.

The Fund is non-diversified, meaning that it invests its assets in a smaller number of companies than many other funds. As a result, an investment in the Fund has the risk that changes in the value of a single security may have a significant effect, either negative or positive, on the Fund’s net asset value per share.
