About Sequoia Fund

Sequoia Fund is a concentrated, value-oriented equity fund that invests primarily in domestic mid- and large-capitalization companies. We evaluate investments with the mindset of a long-term owner of a business rather than a short-term holder of a stock, focusing exclusively on things we believe we can understand, like the quality of a business franchise, the competence of a management team, or the structure of an industry, rather than factors we consider inherently unpredictable, like the direction of the economy or the sentiment of the stock market. While we research and own a wide range of businesses, we prefer high-quality companies run by outstanding management teams that can grow their earnings rapidly over long periods of time. In all of our investments, we aim to create a margin of safety by purchasing our interest in a business for a discount to our estimate of its intrinsic value, and we aim to capitalize on the depth of our research by concentrating our capital in a small and carefully selected group of companies.
